We have been contracted by the Management of this building to provide an **inspection** to your suite for **bedbugs** with our **bedbug-sniffing dog**.

We require access to your suite between the hours of **8 AM and 5 PM**.

NOTE: If you are unable to accommodate this appointment, please contact your resident manager immediately. Ecopest is not responsible for any stains or damage that may occur.

For our service technicians to inspect most effectively and for the safety of the dog, we ask your co-operation in carrying out the following instructions:

1. Put all food away, including pet food/water dishes as this may distract the dog and interrupt her feeding routine. DO NOT try to feed the dog please!
2. Put away all chemicals, especially anything on the floor so the dog does not have access to it. No pesticide dusts, diatomaceous earth, etc – should be vacuumed up. No antifreeze or mothballs should be accessible – this is very toxic to dogs.
3. Pets must be removed or placed in a safe area (ex – bathroom) to ensure the dog isn't attacked or distracted.
4. Remove all kitty litter and place in an area that isn't accessible
5. Remove all mechanical snap traps, sticky traps and any poison bait placed down for other pests
6. Put any poisonous plants such as poinsettias out of reach
7. Put any breakables and valuables out of reach to avoid them getting knocked over, etc.
8. Remove garbage from the unit, including diaper pails, kitchen garbage cans, etc.

NOTE: Our dog is a working dog, which is why we ask she not be fed or interrupted while she is on the job.

THANK YOU FOR YOUR CO-OPERATION
Caring for you and your environment
