PEST CONTROL SERVICES

We have been contracted by the management of this building to carry out a pest control service program in the premises occupied by you. This service is being performed to eliminate (or prevent) a **Pharaoh Ant** Infestation.

This service will be performed on _____ 2010.

We require access to your suite between the hours of **8 AM and 4 PM.**

As a precaution, we require that you vacate your suite for **4 hours** from the time of application.

RETURN TIME WILL BE POSTED IN YOUR DOORFRAME.

NOTE: If you are unable to accommodate this appointment, please contact your resident manager and Ecopest Inc. immediately.

In order to enable our service technicians to apply an effective treatment, we ask your co-operation in carrying out the following instructions:

- 1. All items (including food, toasters et al) must be removed from ALL cupboards in the kitchen, under the bathroom sink and on the kitchen counter. These items cannot be placed on the counter tops.**
2. Furniture in all rooms should be moved at least **1 foot** away from the walls, to allow access to the **baseboard perimeters**. Large items such as wall units, china cabinets, etc. **do not** need to be moved – our technician can work around them.
3. Linen, Broom and Clothing storage closet **floor** (bottom) areas must be cleared of all items. These items can be placed on the beds.
4. Birds and pets **must** be removed from the premises. Fish tanks (if any) **must be covered and motors turned off**, to prevent any possibility of poisoning.
- 5. Bathtub plumbing inspection and repair plate must be taken off, if possible, as this would allow service technicians direct access to the main plumbing area.**

6. Electrical receptacle covers need to be taken off in order to allow access to these areas.
