TO WHOM IT MAY CONCERN

Re: Perimeter Spraying for Ants and Crawling Insects to: \_\_\_\_\_

## **“Weather Permitting”**

This is to advise you that we will be spraying around your complex on \_\_\_\_\_ . If the weather is NOT suitable, we will be there the next available day. Please check with the Management, and they will advise you accordingly.

We ask that you close all windows, and take in all children’s toys, and animal dishes (for food and water) inside until we have finished spraying. All children and pets must remain indoors while we are spraying.

Although the Chemical presents low odor and no hazard to people, pets and birds in the area, we recommend that while we are spraying you do not enter the area being sprayed. It will be totally safe to return to the area one (1) hour after we have completed spraying.

Thank you.

Caring for you and your environment
