

BEDBUG CANINE INSPECTION

We have been contracted to provide an inspection for bedbugs with our bedbug-sniffing dog.

We require access to your suite between the hours of 9AM and 5 PM.

NOTE: If you are unable to accommodate this appointment, please contact your Property Management and/or Ecopest immediately. Ecopest is not responsible for any stains or damage that may occur.

For our service technicians to inspect most effectively and for the safety of the dogs, we ask your co-operation in carrying out the following instructions:

1. Remove linens and place them on top of beds.
2. **DO NOT** place any other items on beds, couches and chairs.
3. Where practically possible, provide access to baseboards.
4. Put all food away, including pet food/water dishes as this may distract the dogs and interrupt their feeding routine. **DO NOT** try to feed the dogs please!
5. Put away all chemicals, especially anything on the floor so the dog does not have access to it. No pesticide dusts, diatomaceous earth, etc – they should be vacuumed up. No antifreeze or mothballs should be accessible – this is very toxic to dogs.
6. Pets must be removed or placed in a safe area (ex – bathroom) to ensure the dog isn't attacked or distracted.
7. Remove all kitty litter and place in an area that isn't accessible.
8. Remove all mechanical snap traps, sticky traps and any poison bait placed down for other pests.
9. Put any poisonous plants such as poinsettias out of reach.
10. Put any breakables and valuables out of reach to avoid them getting knocked over, etc.
11. Remove garbage from the unit, including diaper pails, kitchen garbage cans, etc.

NOTE: Our dogs are working dogs, which is why we ask that they not be fed or interrupted while they are on the job.

THANK YOU FOR YOUR CO-OPERATION
