

## COCKROACHES TREATMENT – BAIT APPLICATION

We have been contracted to provide a pesticide application for the control of **Cockroaches**

We require access to your suite between the hours of **9 AM and 5 PM.**

**NOTE: If you are unable to accommodate this appointment, please contact your Property Management and/or Ecopest immediately. Ecopest is not responsible for any stains or damage that may occur.**

For our service technicians to treat most effectively, we ask your co-operation in carrying out the following instructions:

1. Move items in **all** of the kitchen cupboards towards the **middle** of the shelves so that we have access to the four corners. Kitchen drawers should be **emptied and removed if possible**. Please move out the fridge and stove as well
2. Move items in **all** of the bathroom vanities towards the **middle** of the shelves so that we have access to the back and corners. Any drawers should be **emptied and removed if possible**
3. If an infestation is noted in the pantry or storage areas, move items in **all** of the shelves towards the **middle** of the shelves so that we have access to the back and corners.
4. Due to the nature of the treatment, you **DO NOT** have to move out of the premises during the application.
5. Ensure that the unit is clean and that food items are sealed in containers so that cockroaches cannot access. Keep garbage and food residue to a minimum.

**NOTE:** Cupboard shelves and drawers should **not be washed before returning any items. Please ensure that the bait remains in place and is not chipped off or painted over, as this will reduce efficiency.**

Vacuum after treatment, especially along the baseboards, use crevice tool to get into corners and cracks. Regular vacuuming should be done because cleanliness and sanitation is a vital part of eradication and successful treatment.

We would like to advise you **NOT TO SPRAY** the unit with any domestic insecticidal spray such as RAID, etc. Any spraying will render the bait application useless.

Maxforce – PCP #24240

Professional Roach Bait – PCP# 29169

Drione - PCP# 15255

THANK YOU FOR YOUR CO-OPERATION
